

# Hi-TECH 200

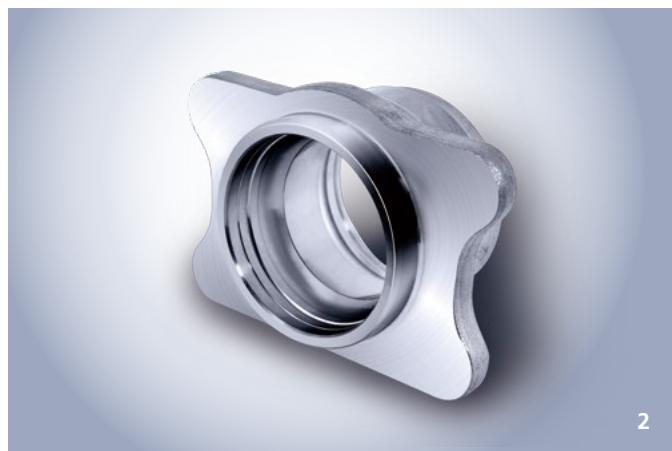

8"-10" Chuck Box Way type  
Horizontal Turning Center

# 8"-10" BOX WAY TYPE HORIZONTAL TURNING CENTER

Hi-TECH 200 is a highly customizable turning center with a fast turret indexing time of 0.15sec/step and the feedrate of 30m/min; and with many optional components, HI-TECH 200 is capable of handling the most demanding machining needs very efficiently.

# VARIETY SPECIFICATIONS FOR CUSTOMER NEEDS

## Customizable

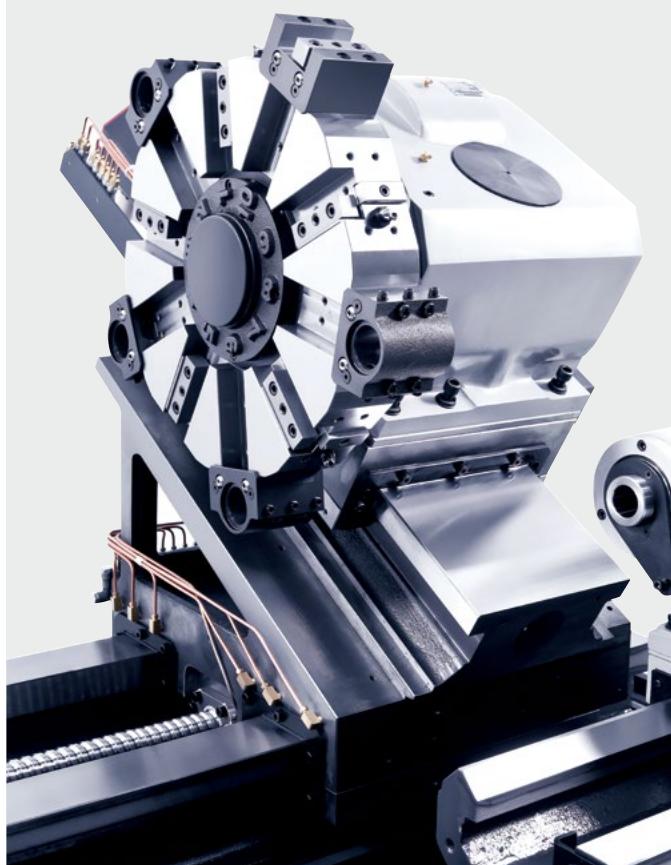

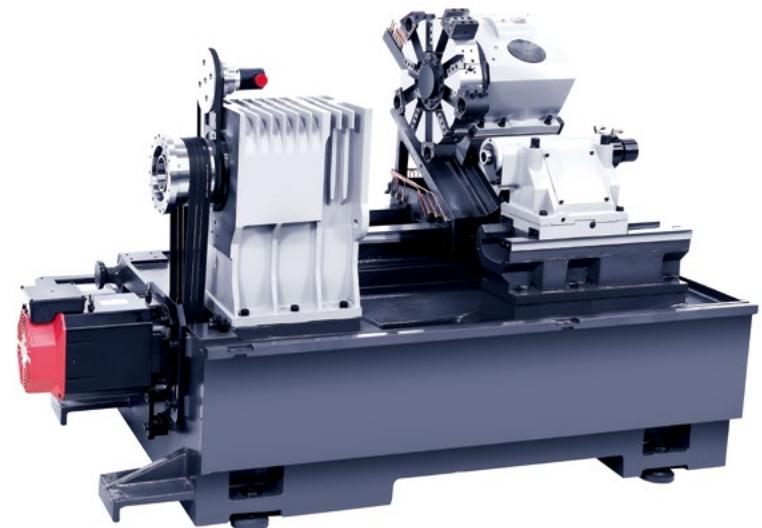

Customize Hi-TECH 200 with many different spindle sizes to fit your work. Its small footprint and rigid box way structure will deliver quality and precision after hours and hours of non-stop operation.

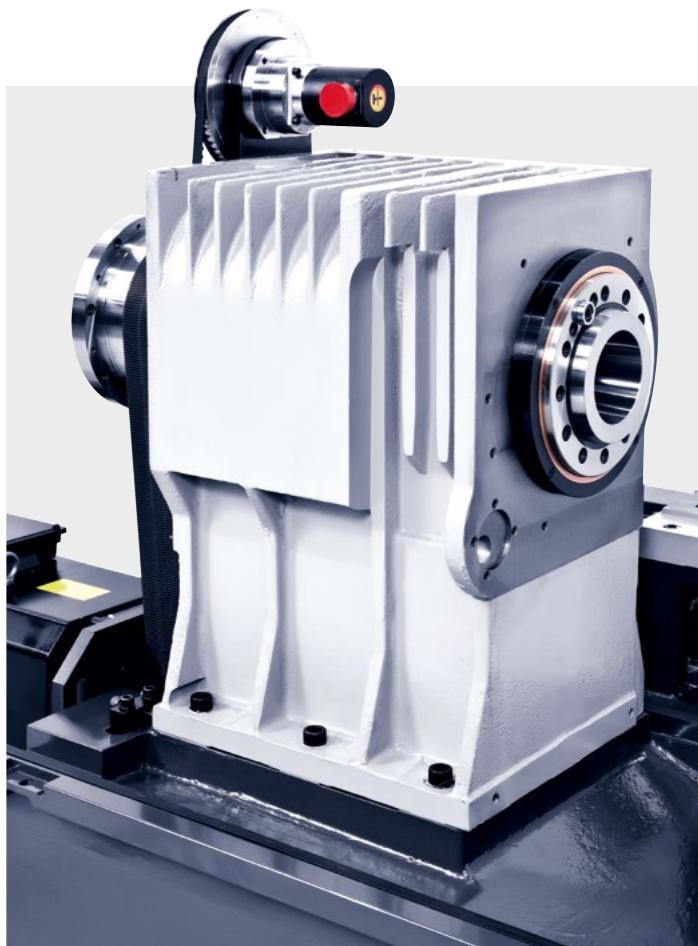

### Extra Rigid Single Frame Structure

Hi-TECH 200 has an integrated unibody bed frame to minimize heat distortion, and the precision-polished wide guide surface and the ultra-durable bed absorb vibration sufficiently, to assure high degree of machining precision. All guide surfaces incorporate box way design to maintain rigidity and accuracy after prolonged operation.

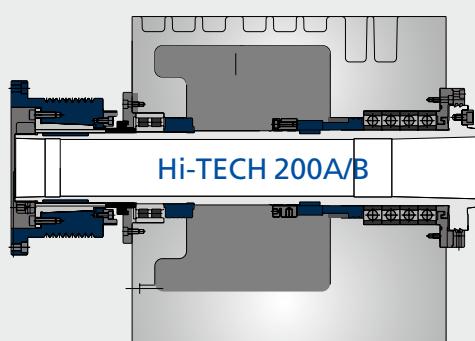

### Tough, Rigid Indexing Turret

Hi-TECH 200's turret provides a fast index time of 0.15sec/step and a massive clamping force of 4,300kg (9,480lb<sub>f</sub>). The spindle indexing is performed by a powerful AC servo motor—making HI-TECH 200 perfect for different machining tasks including milling, tapping, and drilling.

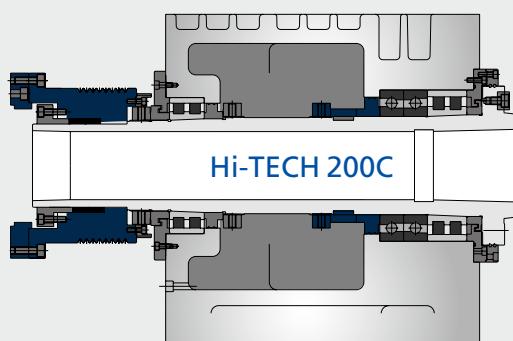

## High Performance Spindle

The Hwacheon clean room assembly facility, where these super-precision, super-speed spindles are manufactured, maintains optimal temperature and humidity, and is kept free of any foreign substances. Only the most skilled master engineers are allowed in the assembly facility, to build only the best equipment under the toughest quality standard in the industry.

**Front:** Ac Ball Bearing x 4

**Rear:** Roller Bearing x 1

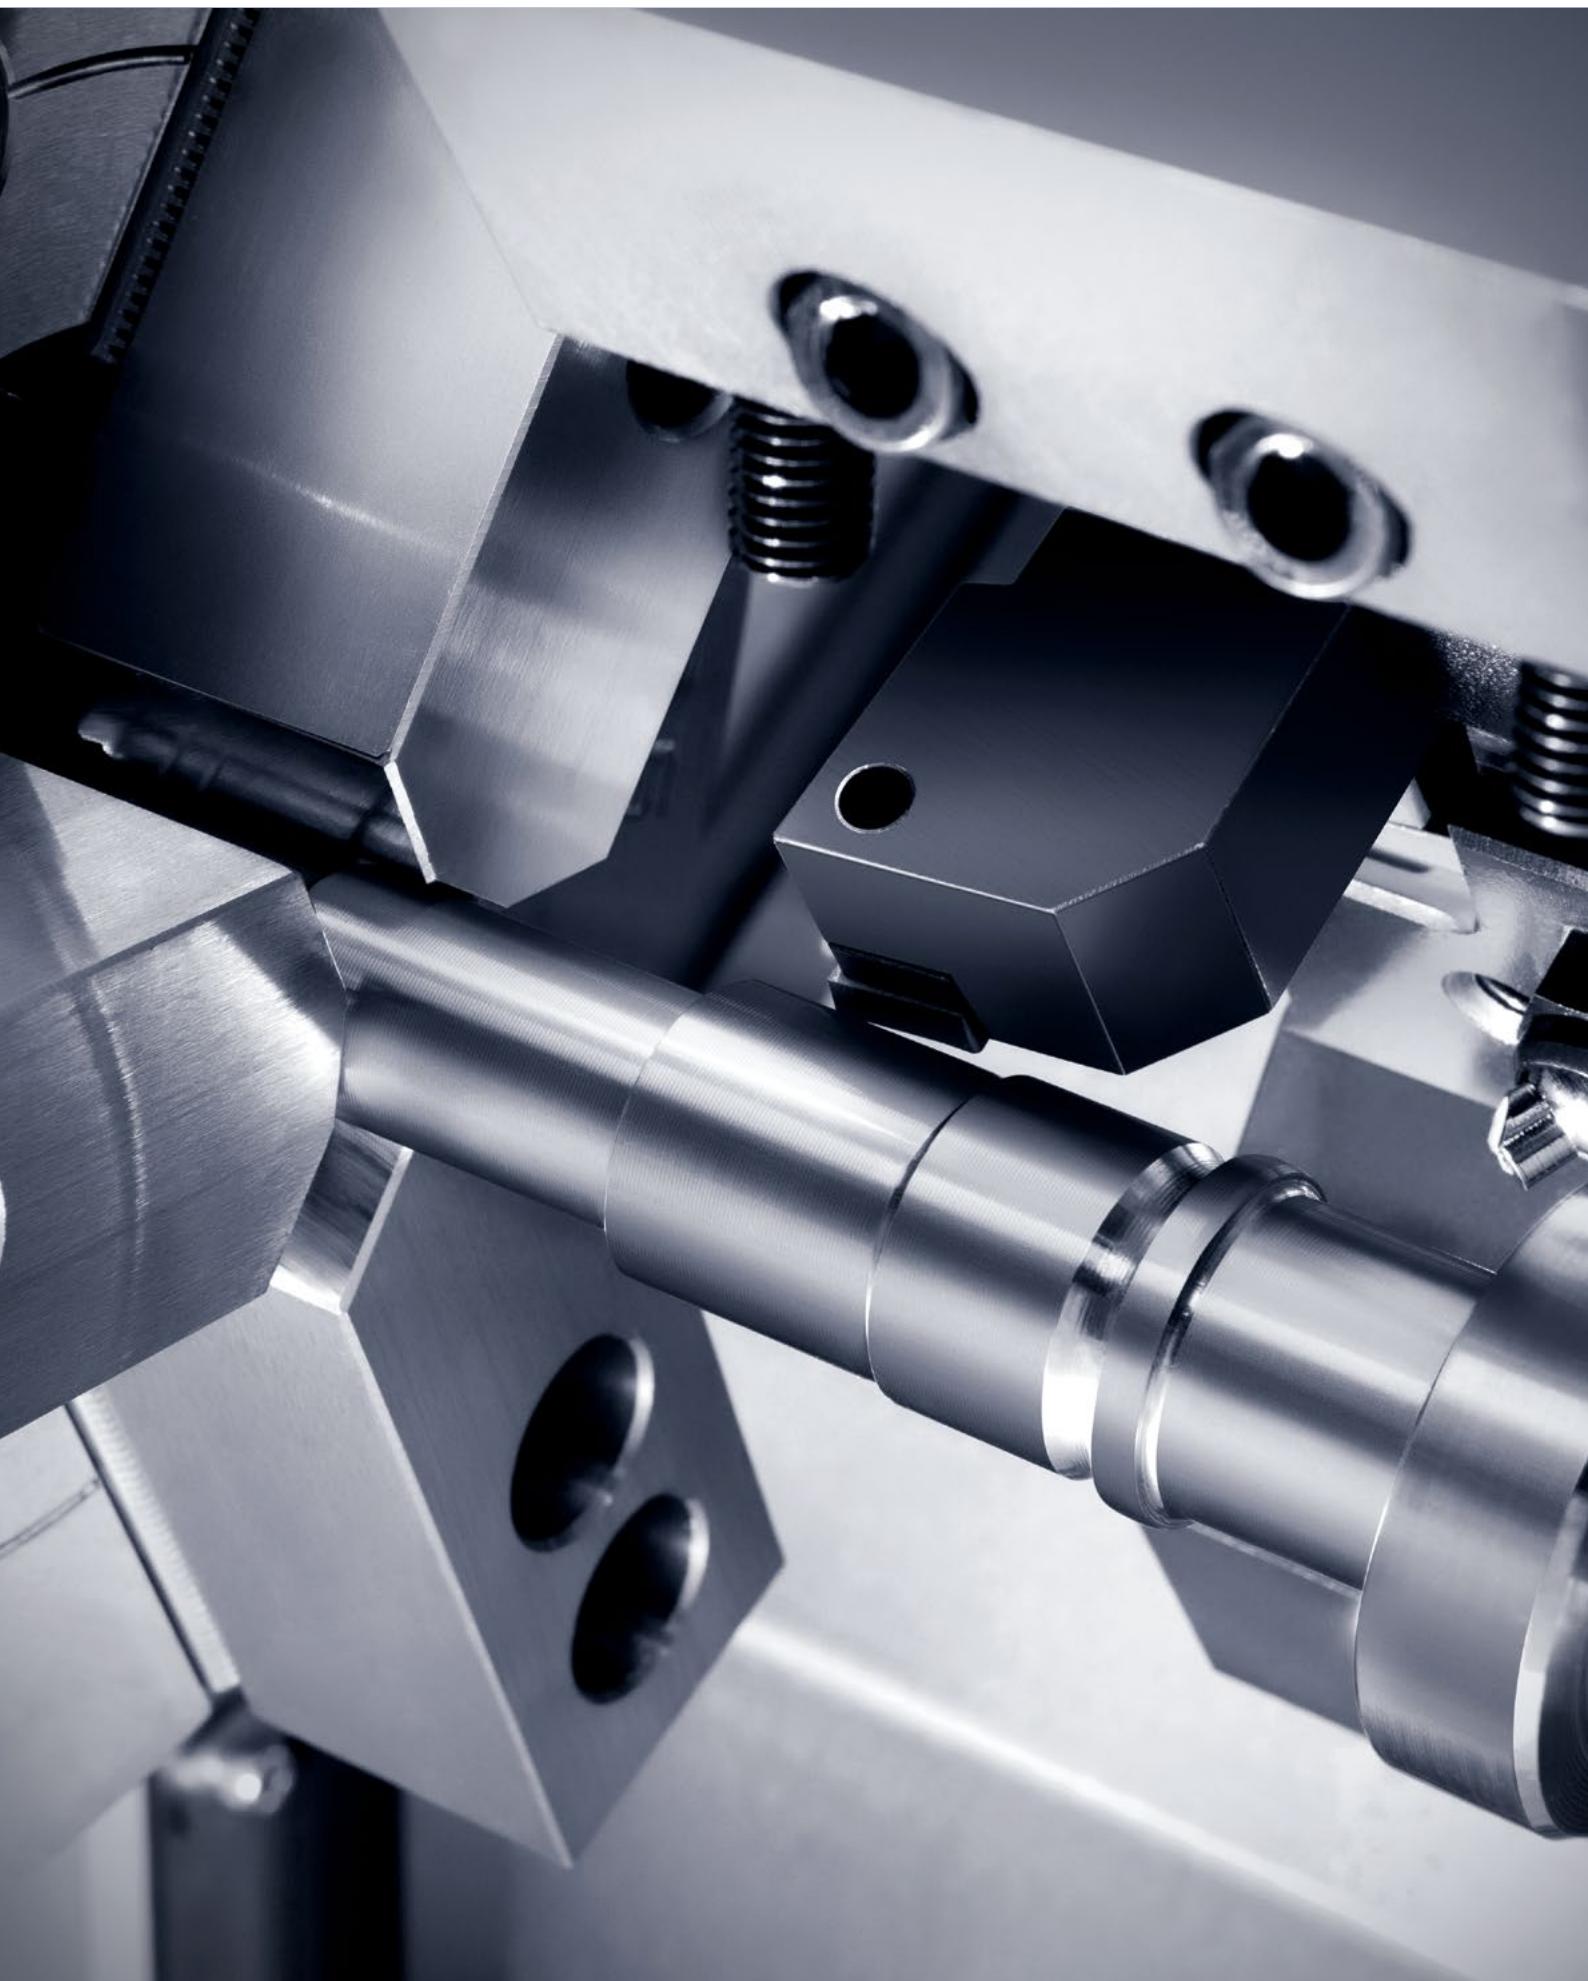

**Front:** AC Ball Bearing x 2+Roller Bearing x 1

**Rear:** Roller Bearing x 1

## Spindle Options

Choose the right equipment for your tasks.

	200A	200B	200C
Chuck Size (inch/mm)	8"/200	10"/250	10"/250
Spindle Nose (ASA)	A2-6	A2-6	A2-8
Max. Spindle Speed (rpm)	5,000	3,500	3,500
Max. Bar Size (mm/inch)	Ø51 / 2"	Ø64 / 2.5"	Ø76 / 3"

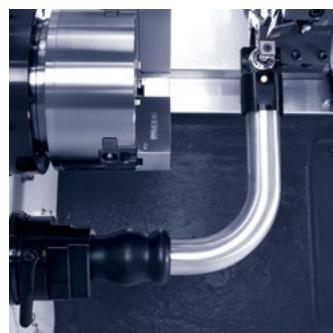

# USER FRIENDLY DESIGN, A WIDE RANGE OF OPTIONAL FEATURES

Hi-TECH 200 is designed to be user friendly, so you can concentrate on what you do best: creating quality products—without losing your valuable time to the worries of machine failure and safety. A wide variety of performance upgrade options are available for faster, more precise machining.

## Parts Catcher (Option)

The parts catcher dissipates the scrap materials left over after machining—to make your work safer and more time efficient.

## Tool Presetter (Option)

The tool presetter employs a highly accurate sensor with the repeatability of 5µm or less to precisely compute for the coordinate settings in less than 15 seconds per tool. Different tool shapes and their tolerance values are entered automatically for the coordinate calculations.

### L-HTLD: Hwacheon Lathe Tool Load Detect System (Option)

The Hwacheon Lathe Tool Load Detect System constantly detects and diagnoses the tool load under a process to prevent tool wear and damage, and to keep your machine and tools in optimal shape.

#### Load Detection Limit 1

#### Load Detection Limit 2

##### Alarm + Feed Hold

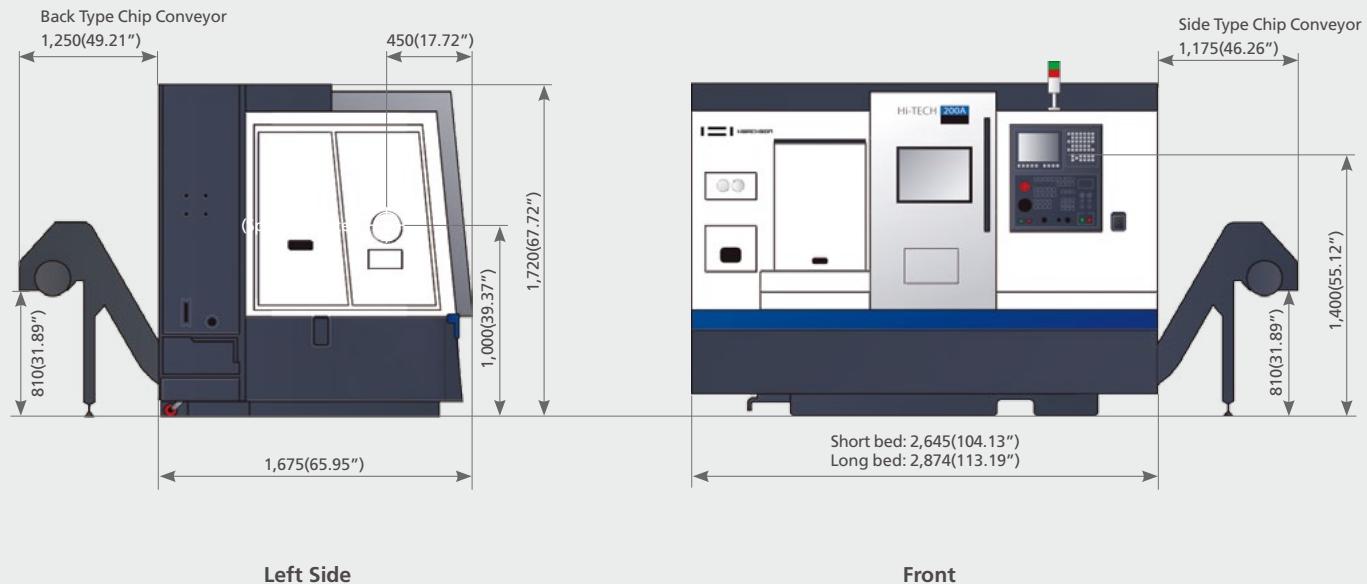

- > When the LIMIT 1 Alarm sounds, the system holds the feed and the machine goes into standby.

##### Alarm + Machine Stop

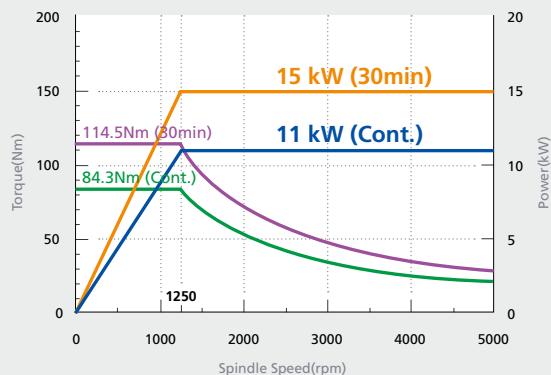

- > When the LIMIT 2 Alarm sounds, the system stops the machine, and must be reset to operate it.
